# Find the Latest Innovations and Information at **molex.com**

For the most in-depth and up-to-date information on all our products, visit molex.com. It's designed to help you get more done in less time with advanced search capabilities, 3D models, product specifications, easy sample ordering and more.

## MOBILE APP FOR ANYTIME, ANYWHERE ACCESS TO MOLEX CONNECTOR SOLUTIONS

The Molex App gives Apple and Android tablet and smartphone users ready access to information on over 90 different Molex product families. Users can visually compare product ranges, access product information and view datasheets offline. App users with an internet connection can directly link to Molex.com for more detailed part number information and product videos. Download the free app now at the App Store and Google Play.

# Brad Core Program Industrial Automation

Europe

Brad products pioneered the market for rugged connectors in industrial applications since the introduction of the Mini-Change in 1968.

Today Molex supports one of the largest portfolios of connectivity and wiring solutions and defined the standards in the industrial market, covering multiple segments and applications.

## AUTOMOTIVE PRODUCTION LINES

Brad products are designed to withstand even the harshest environments with resistance to weld slag, abrasion, cuts and continuous flexing. Providing the foundation for your manufacturing plant, Brad Connectivity Solutions are used in metal stamping, body-weld, paint, final assembly and powertrain.

With functional safety as one of the most vital requirements on every factory floor, Molex has developed innovative solutions for Safety I/O modules which simplify the safety architecture of complex robotic work cells.

## MATERIAL HANDLING

The combination of Brad products with Molex Heavy Duty Connectors and Flamar cables enables the creation of compact connection systems that accommodate the multiple connector interfaces as needed for Material Handling applications.

## FOOD AND BEVERAGE

Brad Connectivity products are designed to meet the increasing need for IP67 and IP69K solutions in the food and beverage industry. The most unique and beneficial is the Brad M12 Ultra-Lock. It provides a safe, reliable connection of sensors, actuators and other control devices.

# **The products you need... when and where you need them.**

## **THE BRAD CORE PROGRAM**

The Brad Core Program includes the most commonly used items in the industrial automation market, ranging from connectivity products and presence sensing devices to active and passive I/O modules.

For further information or assistance, please contact Brad Connectivity tech support at [europe.brad.tech.supp@molex.com](mailto:europe.brad.tech.supp@molex.com).

# Complete Solutions from Molex

Molex is focused on offering value-added solutions to the targeted markets through our long years of expertise and technology in communication protocols and connectivity solutions supported by multiple plants for in house production worldwide.

## Molex Competitive Advantages:

- **Recognized industrial Communication Competence Center**

Active in automation and industrial committees boards like PNO, ODVA, CLPA, IEC, etc.

- **Designs and markets its own industrial communication technology**

PROFINET, EtherNet/IP and safety stacks widely in use by many of the major automation manufacturers

- **Supports a large array of fieldbus communication protocols, both Safe and non-Safe**

—Non-Safe: PROFIBUS, PROFINET, DeviceNet, EtherNet/IP, CC-Link, CC-Link IE, CanOpen, Modbus

—Safe: CIP Safety, PROFIsafe, CC-Link IE Safety

- **Product design and manufacturing integration capabilities**

—Product development and customization

—Product testing

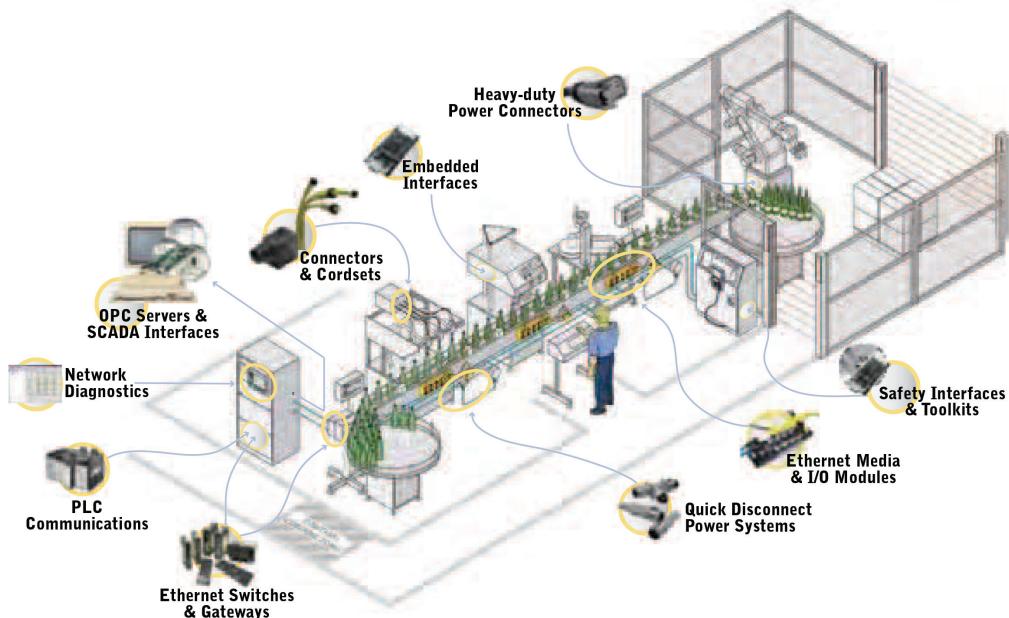

—Total Quality Process

- **Fully integrated capabilities**

Stamping, plating, moulding, assembly, electronic population and assembly, potting and overmolding

# Complete Solutions from Molex

## Ethernet reliable solutions in harsh environments

### Worldwide Unique Feature: Quicker Setups and More Uptime Through Secure Connections Using the Brad Ultra-Lock Patented Connection System

- One simple push delivers a secure, consistent seal each and every time
- Eliminates connector-related intermittent signals that lead to costly production downtime
- Quick change-overs can now be a reality

### React to Problems Sooner Using Easy-to-Read Diagnostics

- Visible LEDs provide maintenance personnel with ability to easily determine I/O, module and network status
- Built-in web server for remote monitoring, configuration and diagnostics

### Reduce Infrastructure Costs with Built-in 2-Port Ethernet Switch

- 10/100 Mbps auto-sensing
- Supports straight or crossover Ethernet cable

### Reduce Inventory Costs Using Configurable I/O

- User configurable I/O – Digital points can be set as either an Input or Output (product also available in fixed I/O versions)

### Save Time Configuring or Replacing I/O Modules

- Thanks to Ethernet protocols, configuration setup can be downloaded into the product directly from the PLC
- With the 3 rotary switches, quickly adjust the last octets of the IP address

### Save Energy by Minimizing Power Supply

- On PROFINET, HarshIO supports PROFenergy service, allowing the IO-Controller to minimize power supply to the connected HarshIO Module(s)

## Built-in Web Server

# Brad HarshIO

## Safety Solutions

Brad HarshIO Safety Modules provide a reliable solution for developing safety applications in harsh duty environments up to EN 61508 SIL3, PLe according to ISO 13849-1.

HarshIO modules provide input and output connectivity to safety sensors and actuators—ideal for automotive applications controlling robots into cells as well as complex machine builders.

### HarshIO Modules Benefits

- Rugged housing—module is potted with resin and has metallic connectors
- Compact design delivers enhanced space savings and simplifies retrofit applications
- Extend temperature range from  $-20^{\circ}$  up to  $+70^{\circ}\text{C}$  with no electrical derating
- 4-pole and 5-pole power connector versions
- Overmolded memory key—stores the module's configuration. Speeds up module replacement while eliminating special tools or recommissioning
- Ethernet Media Redundancy (DLR) and daisy-chaining
- USB stick—including safety manual, configuration software, EDS—with product package

### HarshIO I/O safe capabilities

- TÜV certified: for use in safety applications, up to SIL3 and PLe
- Flexibility: supports connection of single and dual channel safety devices on inputs and outputs
- Individual test outputs: each test output can be assigned to a safety input device, allowing for optimized cable installations
- Safe sourcing outputs (1A) or safe bipolar outputs (2A) module versions
- Versatility: can connect to both standard and safety-rated sensors
- Advanced capabilities: reuse test outputs for added diagnostics, panel lamps, standard actuators, etc. and connect standard proximity switches, sensors and pushbuttons to unused safety inputs

EtherNet/IP

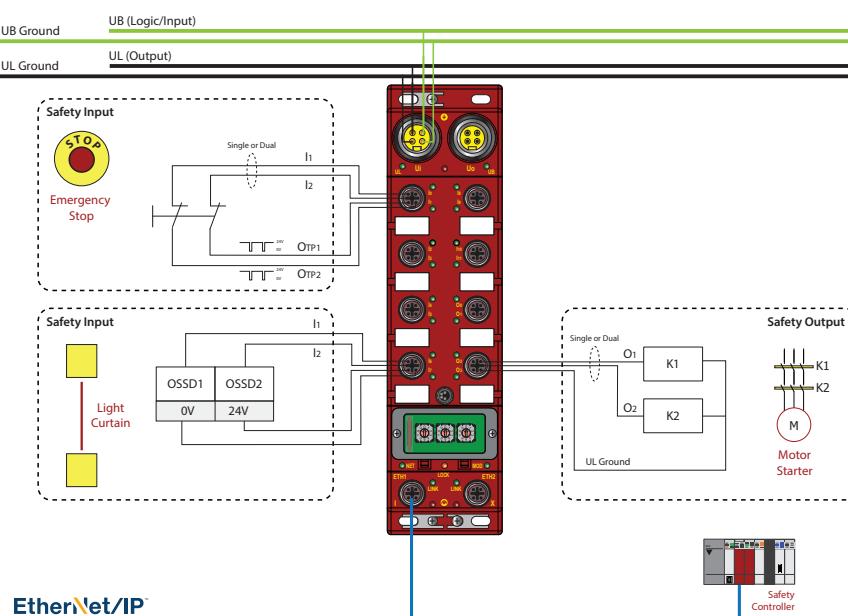

### SNCT—Configuration Software

Fast and easy solution for your HarshIO Safety module commissioning and diagnostic.

Advanced features like online device discovery, copy and paste SNN, Signature to and from RSLogix 5000, safety lock, password protection. SNCT is delivered with the product package.

# Brad HarshIO

## Safety Solutions

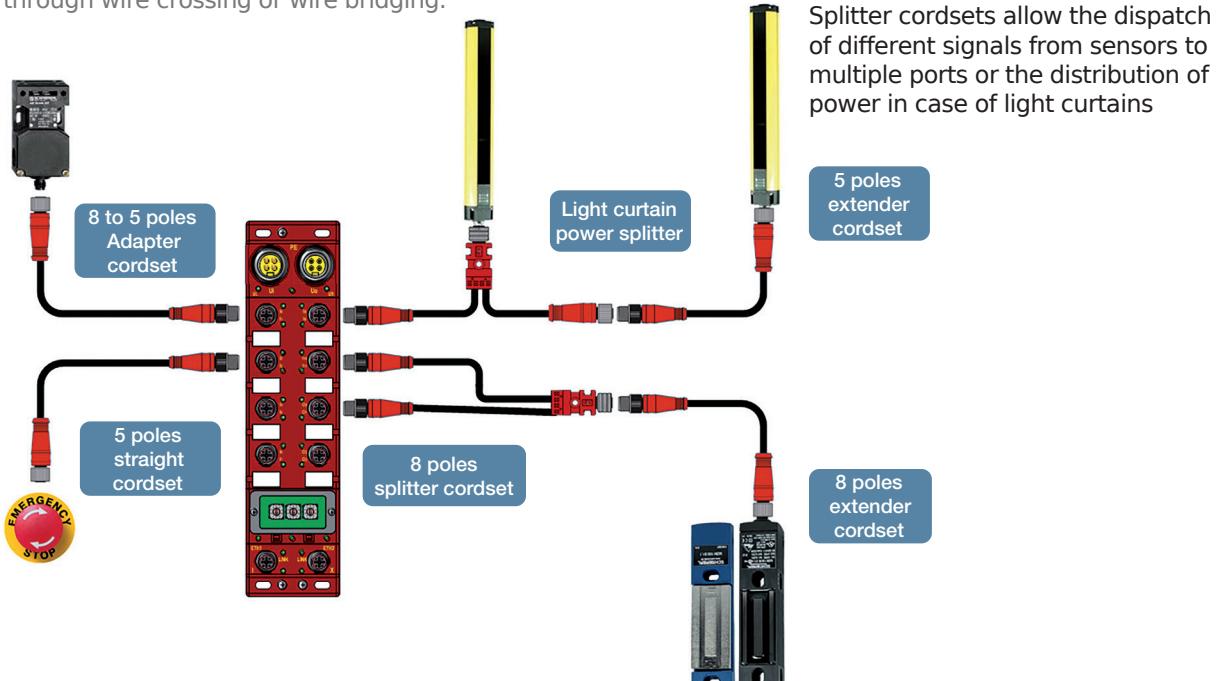

### Safety plug and play infrastructure solution

To simplify the integration of a high diversity of safety devices, Molex provides a range of Safety Passive components as adapters and splitters, for dedicated manufacturer and wiring standards.

An overview of the solutions available is listed in the Safety Integration Manual of our IO module or can be found on the Molex web site: [www.molex.com/link/brad\\_support.html](http://www.molex.com/link/brad_support.html)

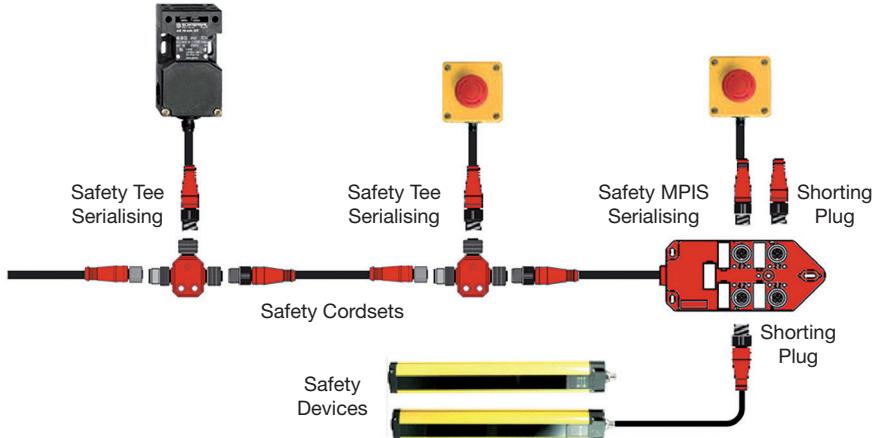

### Adapters and splitters for dedicated interconnection

Adapter cordsets convert different pinout to the standard Safety HarshIO port configuration through wire crossing or wire bridging.

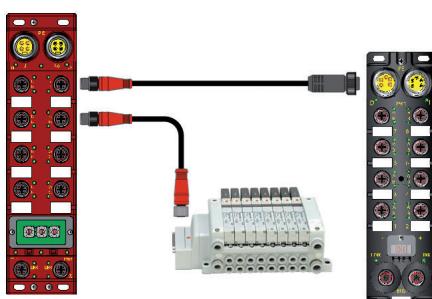

### Increase input sensors by serialisation

Safety Tee and Safety MPIS (Multiport Passive Interconnection Systems) allow the integration of several sensors in a single safety loop. Different wiring is available according to the safety signals (N.O., N.C., OSSD, etc.)

### Safe control of multiple output signals

Allows for power supply, cordset adapters as well as further automation equipment or digital output signals through one single Safe Output device.

# Flamar Cable Solutions

## Industrial Automation Applications

Selecting the right cable for your application is very important to ensure a reliable and problem-free installation.

Careful consideration of mechanical resistance, fluid/chemical exposure, flexibility (C-track, torsion), temperature resistance and flame retardancy are required to select the cable that will provide performance and reliability in service.

### Molex Flamar Solutions

Molex Flamar solutions propose a brand new set of cables designed to cover the broadest range of applications for machine builders and system integrators:

- Signal & Control: to connect sensors, actuators, valves and distribution boxes
- Servo Motor: for power and encoder/resolver connection
- Network: for I/O modules and connection to PLC
- Hybrid: composite multicore cables whenever an extremely compact solution is required
- Encoder and Resolver: for movable or chain applications, are suited for reduced bending radius applications

### Jacket Choice for Most Demanding Industrial Applications

- PVC: the most cost-effective solution for flexible and static installation.
- WSOR: Weld-Slag and Oil-Resistant Cable, a single-cable solution designed to withstand the severe environments found in automotive and industrial factory floors. Suitable for drag chain applications.
- PUR (Polyurethane): ensures top mechanical performance, withstands harsh environments, abrasion resistant. PUR Jacket are halogen free. Suitable for drag chain applications
- TPE: cables defined according to the US/Canadian market requirements (UL PLTC). Suitable for drag chain application.

### 3 Packaging Sizes

Each application section of the Brad Core Brochure includes the ordering number in Small, Medium and Large cable spool corresponding to the cable code from the Brad cordset engineering numbers.

# Weld-Slag and Oil-Resistant (WSOR)

## The Single-Cable Solution

### Extended Characteristics and Resistance

- Withstands severe conditions in harsh environments: weld-slag and oil-resistant outer jacket cable.
- Meets UL 758/1581 and VDE 472-803/B specifications for harsh environment applications: hydrolysis resistant (EN50396); UV resistant (UL1581-300h); tear resistant (EN50396)
- Multiple design options in drag-chain applications: highly flexible cables with bend radius specifications of 5x outside diameter for static and 7.5x outside diameter for dynamic and drag chain conditions
- Wide temperature ranges: static -40 to +90°C, dynamic -25 to +80°C and drag-chain -5 to +60°C
- Ensures safety for out-of-the-cabinet use: certified flame retardant according to IEC 60332-1, CSA FT1, UL Vertical Flame Test, UL AWM Style 21215 / CSA
- ECOLAB compatible: resistant to detergents, disinfectants and wash down water-jet used in Food & Beverage.

### One Solution for Various Applications

- Available in a large cross-section offering: 0.25, 0.34, 0.50, 0.75, 1.00, 1.50 and 2,50mm<sup>2</sup> (AWG 24 to AWG 14) for use in a variety of applications, from sensors and valves to servo motors and networks.
- Suitable for a variety of industry-standard connectors: available overmolded with M8, M12, MiniChange (7/8"), M23 standard connectors for quick and reliable installation in the field or to be combined with Molex field attachable connectors for increased flexibility.
- Designed for use in multiple markets: in the automotive and robotic area, from welding to cutting-oil environments, conveying and most machine applications.

### Optimized and Cost-Effective Connectivity Solution

As manufacturer of this cable range, Molex can control quality and cost at every step of cordset production to provide price-effective cordsets. Choosing this polyvalent WSOR cable also helps to reduce inventory costs. The WSOR cable can also be purchased raw by Molex for the termination on site.

## ETHERNET AND MINI-CHANGE (7/8") POWER DISTRIBUTION ARCHITECTURE

EtherNet/IP™

**PROFINET®**

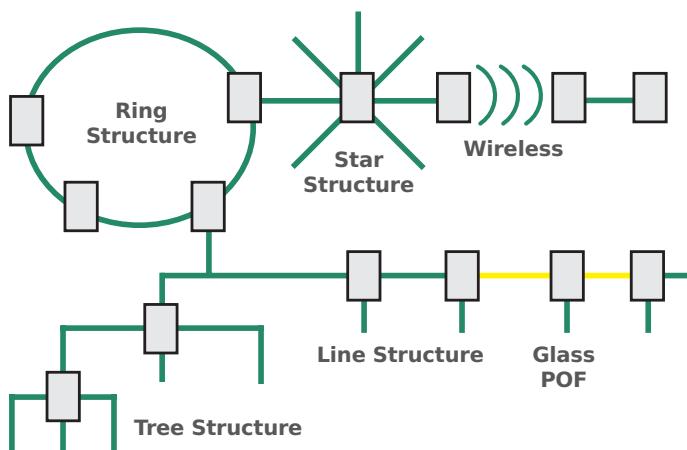

# Network Infrastructure Components

Ethernet in combination with industrial protocols like PROFINET or EtherNet/IP provide deterministic behavior for machine and process control applications with only COTS components.

The transition from the fieldbus to the Ethernet communication technologies helps to simplify the industrial infrastructure and enhance the management and maintenance of the devices providing significant cost savings and performance improvement.

## Type of Network

- Multi-station network
- CSMA/CD—Carrier Sense Multiple Access with Collision Detection

## Physical Media

- Shielded 2 or 4 twisted pairs, AWG22 (PROFINET) RJ45 or M12 D-Code Connectivity

## Network Topology

- Point-to-point communication
- Star topology with switches
- Daisy chain through device integrated 3 port switches
- Ring and redundancy topology protocol dedicated functionalities

## Maximum Distance

- 100m between two devices
- 4 connections between 2 devices allowed
- No termination required

## Power and Communication

- Power is supplied separately from network communication

# Harsh IO Modules

## Brad Ethernet/IP CIP Safety Classic

**Brad HarshIO IP67 Modules for EtherNet/IP featuring CIP Safety technology deliver significant operational advantages of protection and versatility for industrial safety applications.**

### Specifications

#### EtherNet/IP CIP Safety IO Adapter

For use in safety applications, up to SIL3 and PLe; mission time > 20 years  
Real-time I/O update, up to 10 ms

Output bipolar version: max. 2A per dual channel

Support ODVA CIP Safety I/O generic profiles

Services: Automatic Conflict Detection (ACD), DLR Client

EDS upload file (downloadable via CIP File Service)

Integrated Web server for diagnostics

IP address: DHCP, Static Address and EtherNet/IP 0xF5/0xF6 objects

Grounding isolation between Input/logic and Output Power

Easy commissioning thanks to Molex SNCT software and RA RSLogix™ 5000

Memory key for configuration storage: External (M8) or Internal (Window)

Operating temperature: -25 to +70°C

Storage temperature: -40 to +90°C

Approvals: CE, UL, cUL, Rohs, REACH, TUV, ODVA Certified

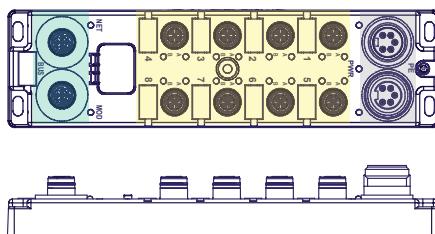

EtherNet/IP®

# Switches

## Brad Harsh-Duty Unmanaged Ethernet Switches

**IP67-rated Harsh-Duty Unmanaged Ethernet Switches** provide customers with a fast, rugged and secure on machine Ethernet connection to reduce network cabling, lower installation costs and eliminate wiring errors.

### Specifications

Unmanaged IP67 switches

Compatible with PROFINET and EtherNet/IP systems

Speed 10/100Mbps auto negotiation, full or half duplex

Auto-learning with no software or configuration required

Operating temperature: -40 to +75°C

Storage temperature: -40 to +90°C

Approvals: CE, UL, cUL

Power supply: 9 to 36v DC

## FUTURE-PROOF YOUR INDUSTRIAL COMMUNICATION INFRASTRUCTURE

# Introducing the Industrial SPE Connectors and Cable Assemblies

It's time to replace your fragmented legacy network with a unified Ethernet-based solution. Realize your Industrial IoT initiatives with Molex's new Industrial Connectors and Cable Assemblies.

## ADVANCE NETWORKING STANDARDS WITH SINGLE PAIR ETHERNET

**Faster Data Speeds** of 1 Gbps are achieved using only two wires and the simultaneous power supply for terminals through Power over Data Line (PoDL) up to 50W.

**End-to-End TCP/IP-Based Communication** permits a barrier-free connection of equipment and sensor/actuator technology to reduce costs, simplify setup and improve efficiency.

**Miniaturization** of the Molex SPE Series significantly eases cable routing and reduces weight by utilizing only one twisted pair of wires with a gauge as small as AWG26 and AWG22.

**Ruggedization** against harsh industrial environments has been designed into the series using halogen-free, oil-resistant and flame-retardant cable assemblies with IP20 rating.

From the factory floor to the cloud, future-proof your industrial communication infrastructure with Single Pair Ethernet by Molex.

# molex

Molex supports one of the largest portfolios of connectivity and wiring solutions in the industrial market and brings industry-leading expertise to deliver integrated solutions for customers worldwide.

The collaboration with Contrinex, a Swiss-based manufacturer of inductive and photoelectric sensors for factory automation, expands the Molex portfolio to address customer requirements for smart manufacturing, thanks to the broad availability of IO link solutions within the product range.

## At a Glance

- Technology-leading manufacturer of inductive and photoelectric sensors as well as safety and RFID systems
- World market leader for miniature sensors, sensors with long operating distances and devices for particularly demanding operating conditions (all-metal, high-pressure and high-temperature resistant sensors)
- Represented in over 60 countries worldwide, headquarters in Switzerland

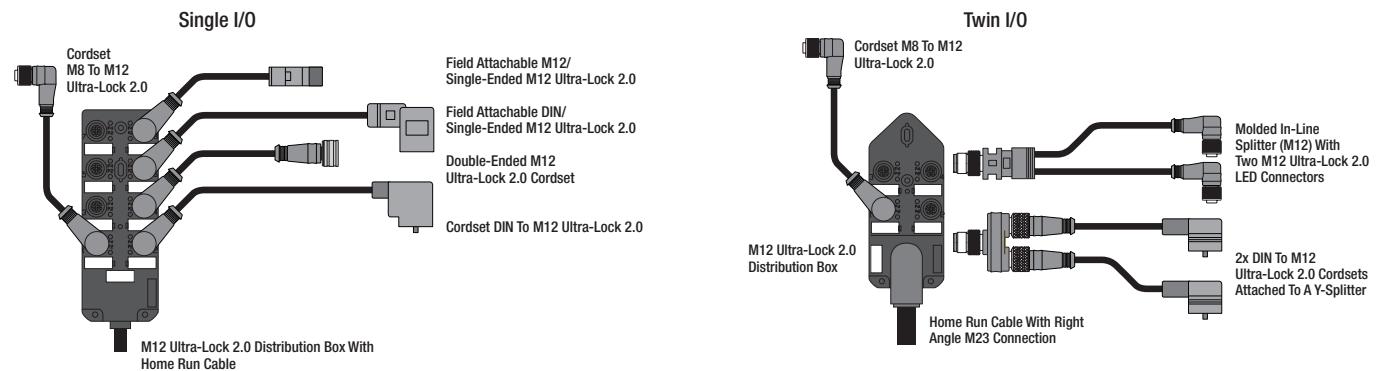

For more information regarding the range of Contrinex products available by Molex, please visit

## MICRO-CHANGE M12 SENSOR/ACTUATOR INTERCONNECTION

## NANO-CHANGE M8 SENSOR/ACTUATOR INTERCONNECTION

# Sensors and Actuators Connectivity

## ADDITIONAL INDUSTRIAL POWER CONNECTORS FROM MOLEX

### Brad Multi-Port Interconnection Systems (MPIS)

Solution to reduce installation time and costs:

- IP67 protection can be installed directly on the machine, close to the automation devices keeping single wiring distances low.
- Concentrate sensor and actuator signals and distribute the power supply reducing homerun cable dimensions.
- Signal diagnostic information to quickly detect machine status and failures on devices.
- Home run cable termination via an M16/M23 connector, via field terminated screw terminal for installation flexibility or for cost savings directly mounted on the module.

### Single and Dual signal ports

Brad MPIS and Active HarshIO I/O Ports can manage up to 2 signals per port (Twin I/O).

Signals are concentrated on Twin I/O ports:

- By using Splitter cordsets
- By using solid body Y or Tee Splitters as shown in the diagram on the previous page.

Primary signal (from device A) will be on Pin 4  
Secondary signal (from device B) will be on Pin 2  
As displayed below.

### MPIS Applications

MPIS solutions are ideal in case of small or mid-size machines. Larger machines or higher IO counts may prefer the active networked HarshIO modules.

# Sensor/Actuator Distribution Boxes

Brad MPIS

**IP67-rated passive IO modules for harsh environments are designed to concentrate the sensor/actuator signals into one unique home run cable for better mechanical infrastructure wiring on the machine.**

## Specifications

IP67 Molded PBT Housing, color Black  
Single or Dual Input/Output signal per port  
Indicating LED for Power and sensor trigger

PNP Version (available also in NPN version)  
Electrical: 10-30V DC max. & 12.0A max. (4.0A max. per port) Approvals: UL, CSA, IP67

### B30 WSOR Cable Specification\*

Conductors: 3x0,34 mm<sup>2</sup>, 4x0,34 mm<sup>2</sup> or 5x0,34 mm<sup>2</sup> \*\*  
(Brown, White, Blue, Black, Grey)

Jacket material: Black WSOR, flame retardant, oil, UV & Weld Slag resistant, silicone & FCKW free

Diameter 3 Pole: 4,8 +-0,2mm

Diameter 4 Pole: 5,1 +-0,2mm

Diameter 5 Pole: 5,5 +-0,2mm

Voltage Rating: 600V

Static Operating Temp: -40 to +90°C

Dynamic Operating Temp: -25 to +80°C

Drag Chain (>5 Mio Cycles) & torsion suitable

Approvals: UL AWM Style 21215 / CSA

\* Detailed cable specification attached to bulk cable drawings

\*\* 8 pole cable specification: see B41 description in M8 section

### Knurled/Hex Nut for WSOR Cordsets

All WSOR M12 and M8 cordsets have a knurled/hex coupling nut to use with dynamometric torque tools to make sure that your connection is perfectly tight.

### M8 Torque Tool (Wrench Size 9)

Standard Order No.  
120303-5017

### M12 Torque Tool (Wrench Size 13)

Standard Order No.  
120303-5018

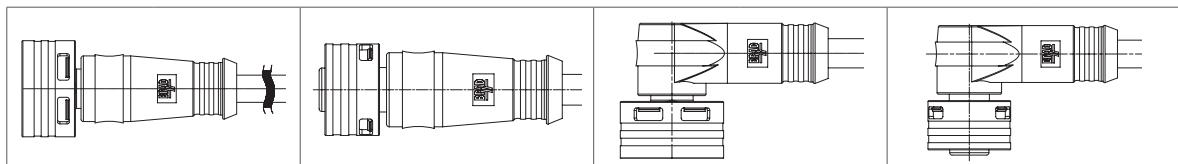

# Sensor/Actuator Connectivity

## Brad M12 Ultra-Lock 2.0 Connector System

The Brad M12 Ultra-Lock 2.0 products meet the IEC 61076-2-010 standard and provide an easy-to-assemble interface, delivering increased productivity and cost savings while surpassing the performance and reliability of traditional threaded connectors.

### B41 WSOR Cable Specification

Conductors: 3x0,25 mm<sup>2</sup>, 4x0,25 mm<sup>2</sup> 5x0,25 mm<sup>2</sup>, 8x0,25 mm<sup>2</sup>  
(Brown, White, Blue, Black, Grey)  
(BN, WH, BE, RD, GY, GN, YE, PK)

Jacket material: Black WSOR, flame retardant, oil, UV & Weld Slag resistant, silicone & FCKW free

Diameter 3 Pole: 4,5 ±0,2mm

Diameter 4 Pole: 4,8 ±0,2mm

Diameter 5 Pole: 5,3 ±0,2mm

Diameter 8 Pole: 6,4 ±0,2mm

Voltage Rating: 600V

Static Operating Temp: -40 to +90°C

Dynamic Operating Temp: -25 to +80°C

Drag Chain (20 Mio cycles at 15xO.D.) & torsion suitable

Approvals: UL AWM Style 21215 / CSA

# DIN Valve Connectors

## Brad mPm

The mPm DIN valve connectors conform to the industry standard of electrical connectors EN 175301-803, which are commonly used with solenoid valves. The new generation of Molex DIN connectors provides unsurpassed sealing performance, easier assembly and mounting and lower applied costs.

### Circuit C4 Schematics

Bipolar LED and VDR to protect supply and switch.  
Available voltage rating on C4 circuit against peak of overvoltage:

12, 24, 48, 115 and 230 V AC-DC

#### Note:

The mPm DIN valve connectors are available with various pole counts, housings and electronics.

Further technical information, datasheet or drawing can be downloaded from the Molex website using the ordering part number.

UL recognized, cURus marked, file E218123 (product available upon request or specific part number)

# DIN Valve Connectors

Brad mPm

The mPm connectors with molded-in cable are suitable for use with most types of solenoid. They offer a fast and efficient method of connection resulting in greatly reduced installation time and costs.

# Power Distribution Connectivity

## Brad M12 Power L-Code Connector System

**63V AC/DC; up to 16.0A current per pin**

- IP67-sealed interface
- Delivers 4 times the power of standard M12 connectors

## Brad Mini-Change 7/8" for Power Distribution

**Dedicated +24VDC power supply for 60mm HarshIO modules.**

- Up to 8 Amps UL per contacts
- 16 AWG Wires (1.5mm<sup>2</sup>) for low voltage drop
- 5 Poles version

## Heavy Duty Connectors

- Rectangular connector for high density and modular connectivity applications
- Up to 100 Amps according to inserts and contacts used

# Power Infrastructure Connectivity

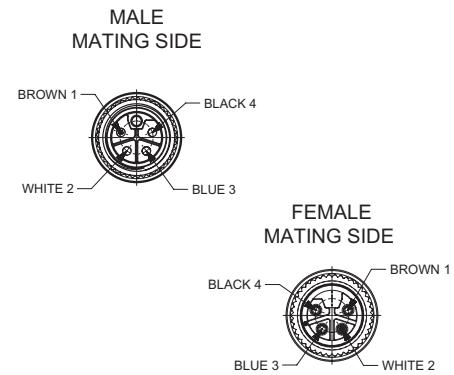

## Brad M12 Power L-Code Connector System

**Provides the power required for Industry 4.0 electric propulsion while being both compact and reliable. Meets PROFIBUS and PROFINET International (PI) standards for PROFINET systems. Compact and powerful.**

### B66 WSOR Cable Specification

Conductors: 5 x AWG 16 (1.50mm<sup>2</sup>)

Color cores: White, Blue, Black, Grey, Brown

Jacket Material: Weld, Slag, and Oil Resistant PUR based; Light grey, not halogen free, flame retardant, UV resistant, silicon and FCKW free.

Voltage rating: 600V

Operating Temperature Range: - 40°C to + 80°C\*

Drag Chain\*\* and Torsion suitable

UL758 Certified

\* Fixed temperature range

\*\* Up to 5 million bending cycles @ 20°C
